

METRIE

INTERIOR MOULDING & TRIM

Northeast US

WE ARE METRIE

For nearly a century, we've honed our love of beautiful millwork to deliver solutions beyond measure. Our focus on high-quality products and dedication to providing personalized support have helped us grow from a small, family-owned business into the largest supplier and manufacturer of solid wood and composite moulding in North America.

**EXCEPTIONAL
EXPERIENCES,
EVERY DAY**

We're more than a millwork company. We're a trusted partner serving those in the pursuit of a remarkable home.

Metrie creates high-quality, finely crafted architectural elements that help people transform houses into homes. Because we understand that when you're home, you're whole.

EXTENSIVE REACH WITH A LOCAL FEEL

Metrie has the broad reach and supply chain expertise of an industry leader with the personal touch of a family business.

We operate six domestic manufacturing facilities between the U.S. and Canada, and we are the largest manufacturer of MDF moulding in North America.

TAILORED SOLUTIONS

We listen to our customers to interpret trends and solve pain points so we can make it easier for them to succeed.

Our mills allow us the flexibility to provide the right solutions to the markets we serve, understanding regional differences and adhering to strict specification standards.

STORAGE, HANDLING, AND PREPARATION OF ALL MOULDINGS AND S4S BOARDS

Prior to installation, it is important to acclimate your moulding and trim products by storing them in the installation space for at least 3 days. Wood and wood based products can expand and contract depending on internal and external environmental moisture levels. For best results, be sure to store products in a dry location and transport only if fully protected from water. Keep products clean from dirt and debris and finish according to paint and stain manufacturers' recommendations.

- 1 ARCHITRAVES:** In classical architecture, it described the main beam resting on the tops of the columns. Today it is often used as a decorative moulding for ornamentation or finishing at the top of windows and doors.
- 2 BASEBOARDS:** Baseboards are placed along the wall at the floor. They should be chosen to work in harmony with your casings to finish and tie the room together. Baseboards are usually thinner than the casing.
- 3 BUILD-UPS:** Combining two or more moulding profiles to create a new or custom look. Also called stacking, build-ups make it easy to create the look of custom made trimwork without the high cost.
- 4 CASINGS:** Casings define the overall character of a room and are often the most visible part of the trim. They are used primarily to cover the gap between drywall and the door or window frame. Casings are generally thicker than the base mouldings.
- 5 CROWNS:** Crowns are placed along the wall at the ceiling. They come in a wide range of patterns and sizes. Crowns soften the transition from wall to ceiling while adding a distinctive look and charm to your room.
- 6 FINISH BOARDS:** Finish Boards come in either S4S (Surfaced 4 Sides) or S3S (Surfaced 3 Sides) and are used for a multitude of purposes including shelving, window liner, bases, casing, etc.
- 7 PANEL MOULDS:** Panel Moulds are used to frame wall paneling and add an accent to your walls. Often used in furniture construction.
- 8 RAKE MOULD:** Rakes are often used as crowns. In fact, they are sometimes called "solid crowns".
- 9 WAINSCOT:** Trimwork installed in the area below a chair rail. Numerous options are available including raised panel, shadow box and beaded. Combined with a chair rail and baseboard, Wainscoting creates a dramatic look to any room.
- 10 WINDOW STOOL:** Also called window sill, a Window Stool is the surface installed below the sash of a window. Trim installed under window stool creates a distinctive look and adds a decorative touch.

ARCHITRAVES

ARCHITRAVES

High above windows and doors, architraves work to add grandeur to any space – reducing miter lines and elevating your look. A great architrave is, above all else, the dressing that's built to impress.

BASEBOARDS

Your look starts here – at the foundation of a room. A great baseboard complements a casing and creates a smooth transition from the wall to the floor, guiding you seamlessly from room to room.

BASEBOARD CAPS & SHOES

Baseboard caps are added to the top of regular baseboard moulding and flush to the wall to create a finished and more complex architectural moulding. Baseboard shoes are primarily used to trim flooring materials and are often used in combination with a traditional baseboard to conceal variations between the flooring and the base. However, this versatile profile works great to solve numerous trimming needs.

CASINGS

Casings bring a room together – left to right, top to bottom. And like any framing element, the options are endless, from build-ups of multiple pieces to full wraps. With casings, there's no wrong way, only your way.

PIN

HALF ROUNDS

A cross section of a half round looks like a half circle and is used primarily as decorative trim. It works well as a trim piece for wallpaper or to add a decorative pattern to flat panels.

This profile can also be used to put a rounded edge on various shelving.

MISCELLANEOUS

LATTICE

A thin strip of flat moulding commonly used to hide seams and edges.

STOCK CODE	DIMENSIONS
265LD (1462051)	1/4" x 2 1/4" x RL
265D (1462050)	1/4" x 1 3/4" x RL
266D (1462052)	1/4" x 1 5/8" x RL
267D (1462054)	1/4" x 1 3/8" x RL
268D (1462055)	1/4" x 1 1/8" x RL

PIN

SQUARE

Squares are used in the framing of shelves and cabinets, or are used to build up other profiles. Its uses are mostly utilitarian.

STOCK CODE	DIMENSIONS
254P (1462044)	1/2" x 3/4" x 16'

PFJ

SCREEN MOULDS

A very versatile profile; screen mould fits a wide variety of needs and uses. Traditionally used to hold mesh screening into wood screens, it also works well as edge trim on various shelving or wood trim for wallpaper.

SPARTAN EXTREME LOSP

The Spartan Xtreme paint protection system is designed for extreme performance. It restricts the rate of moisture uptake by the substrate making it great for both interior and exterior applications.

Finished S4S boards are used for a multitude of purposes including, window ledges, shelving, base, casing, etc.

BORN IN AUSTRALIA, PERFECT FOR THE USA

Spartan Xtreme has been in the USA for over 10 years and was the first brand to offer a "guaranteed not to rot for 30 years" product to the USA exterior wood market. Spartan Xtreme offers an extensive range of boards and moulding which come with the Spartan Xtreme 30 year warranty against rot, decay, and insect attack. Produced using Radiata Pine, one of the world's truly renewable resources, combined with innovative treatment technologies and our patented priming and top coat system, Spartan Xtreme is the ultimate in exterior above ground wood products.

SPARTAN XTREME FEATURES

- Defect Free Radiata Pine
- Manufactured from sustainably managed Radiata Pine
- Exterior Glue System meets ASTM D5572 and D5751
- Guaranteed not to rot for 30 years
- Coated with a proprietary paint system designed to work specifically with LOSP treated material
- New top coat technology protects Spartan Xtreme after installation from the elements for 6 months prior to application
- Low embodied energy compared to alternate products

JAMBS

The top and two sides of a door or window frame that contact the door or sash: top jamb and side jambs. The most common size for interior use is 11/16" thick by 4-9/16" wide.
