

# NORTH POINT

CLOSETS™

SIMPLIFIED STORAGE. BUILT BETTER.

## The NorthPoint Closets™ Solution

With NorthPoint Closets, Hardware Resources has made it easy to add functional storage to closet spaces—quick toolless assembly, simple installation, and modular sizing, all backed by a company that's Built Around You.

- QuickSnap™ connection system makes assembly fast and easy
- Quick installation—screw right into studs, no additional hanging system needed
- Mix and match modular units to create personalized closet storage
- Predictable shipping charges with free freight on most orders
- Products are in stock and ready to ship, delivering quickly in days, not weeks
- Best-in-industry customer support

NorthPoint Closets™ is exclusively manufactured by Hardware Resources, a trusted company in the cabinet industry for 35 years.

# The Quick Advantage

## Ships QUICKLY, Assembles and Installs FAST

NorthPoint Closets™ offers a **quick** advantage for you by making it fast and easy to design, order, ship, and assemble closets. **Why does this matter?** With a reduction in time and labor, you can complete more jobs and see your business grow.

Some specific ways the NorthPoint Closets Quick Advantage can benefit your business:

- **Quick to Design**

Modular units combine to make a configurable design; our closets are available in 2020 Design Live, or log in to HardwareResources.com to use our closet design tool powered by 17squares

- **Quick to Order**

Use our quoting tool to build an order, then easily place orders on our website at NorthPointClosets.com, or by contacting a live customer service agent

- **Quick to Deliver**

In-stock, ships within 48 hours, delivers in days

- **Quick to Build**

QuickSnap™ connection system makes assembly fast and easy, much faster than traditional cam locks and doesn't require experienced labor

- **Quick to Install**

Just screw into studs—no additional hanging system required; hardware and instructions included.

For more information, visit [NorthPointClosets.com](https://NorthPointClosets.com) or scan the QR code.

# Quality Comes First

You can trust NorthPoint Closets for your customers. Our closets and hardware have been engineered with quality in mind. Every detail is thoughtfully designed to deliver strength and functionality. Built with care, these features ensure dependable performance and quality you can count on.

## Strong Connectors

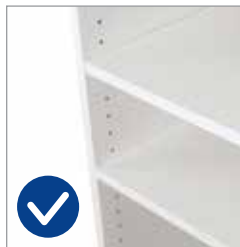

Our QuickSnap™ connectors are designed to deliver concealed and durable reinforcement. Installation is a breeze with a seamless snap-in-place connection that requires no extra tools.

## Structural Integrity

Meaningful yet hidden reinforcements—high quality,  $\frac{3}{4}$ " furniture board casework and 1" plywood support rails—help reinforce the structural integrity of the closet.

## Clean Interiors

Unlike cam locks, our closet system connectors remain out of sight, so your customers can admire their closet without seeing how it's connected.

## Adjustable Shelves and More

Add adjustable shelves, closet rods, or drawer boxes to frame units for more personalized storage.

## Durable Finishing

Built to last, our scratch-resistant Thermally Fused Laminate surface creates a professional and durable finish. The laminate is carried through all elements of the closet (including drawers and adjustable shelves) for a seamless, polished look.

## Weight-Rated for Everyday Life

When it comes to a closet, your customer's biggest worry should be about what clothes go in them. That's why our shelves and rods are rated to withstand weighty wardrobes.

## Hardworking Hardware

Our closet modules are designed with strength and performance in mind. From HR MAX™ full-extension, soft-close, ball bearing drawer slides with a 100 lb weight rating to chrome-plated steel oval closet rods, our hardware is designed and tested to not only meet but exceed industry standards.

## Protective Packaging

The first step toward creating a quality closet is receiving undamaged components. NorthPoint Closet module packaging is engineered to withstand the normal impacts of shipping, protecting the product from our door to yours.

## Build Closets in a SNAP with our QuickSnap™ Connection System

In two simple steps, assemble a closet lightning fast.

Align the male connector with the female housing counterpart.

Press to snap the panels together.

Build an average size primary closet in less than half a day!

# The QuickSnap™ Connection System

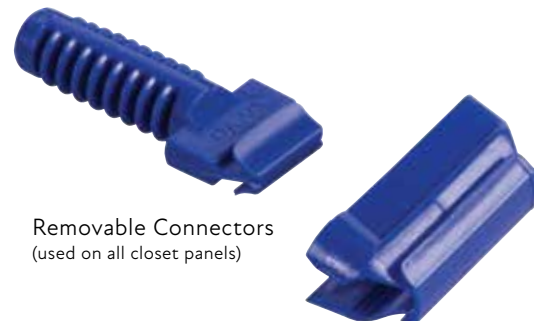

## Why QuickSnap™ Connectors are superior to cam locks:

- QuickSnap™ connectors are made from high tensile strength material—the same material used to make aerospace flight components.
- QuickSnap™ connectors come pre-inserted into the panels. There's no need to worry with inserting and aligning cam locks. This reduces the fuss over handling small parts that can slow assembly.
- QuickSnap™ connectors won't strip or misalign like traditional cam locks.
- QuickSnap™ connectors can be easily disassembled if needed. Simply slide the panels in opposite directions to release the panels from each other.

# Closet Lineup

NorthPoint Closets is built on a simple idea: customization shouldn't be complicated. Our modular system gives you the flexibility to create storage that fits your space, your style, and your needs—whether you prefer to design your own or choose from ready-made solutions.

## OPTION 1: Build Your Own Module

### Mix, Match, and Make it Yours

With interchangeable frames, shelves, rods, drawers, and accessories, you can mix and match components to build your ideal configuration. Each frame is designed as the foundation of a section; add shelves for folded clothing, rods for hanging, or specialty accessories for maximum functionality. It's an intuitive, building-block approach that lets you create a truly personalized closet with ease.

## OPTION 2: Curated Combinations

### Pre-Configured Modules for Quick Selection

If you want a faster, simpler way to shop, our Curated Combinations deliver designer-approved layouts without the guesswork. Each Curated Combination consists of thoughtfully prepared, grouped components that, together, create a complete closet module.

### Wall Units

Available in 14" depth

#### Frame Only Units

Widths: 18", 24", 30", and 36"  
Heights: 24", 48", and 72"

#### Curated Combinations: Frames with Rods

Widths: 18", 24", 30", and 36"  
Heights: 24" and 48"

#### Curated Combinations: Frames with Shelves

Widths: 18", 24", 30", and 36"  
Heights: 24", 48", and 72"

Add drawer boxes, adjustable shelves, or rods to frame units for more configurability.

### Floor Units

Available in 14" and 20" depths

#### Frame Only Units

Widths: 18", 24", 30", and 36"  
Heights: 34", 72", and 84"

#### Curated Combinations: Frames with Rods

Widths: 18", 24", 30", and 36"  
Heights: 72" and 84"

#### Curated Combinations: Frames with Shelves

Widths: 18", 24", 30", and 36"  
Heights: 34", 72", and 84"

#### Curated Combinations: Frames with Drawers

Widths: 18", 24", 30", and 36"  
Heights: 34", 72", and 84"

## Closet Configurations

It's easy to configure the perfect closet system with our modular units available in widths of 18", 24", 30", and 36". Combine rod storage, shelf storage, and drawer storage in a variety of heights to build personalized solutions for your clients.

Build with height to create more usable storage in a small space—make every closet an opportunity to design.

No limits on space? Build out “his” and “hers” style configurations that can be as simple or as elaborate as your design demands.

Expand horizontally across the top of the closet to keep the bottom accessible for bulky items like luggage and hampers.

# The Harbor Collection

Where aesthetic meets functionality. High-quality finishes with clean interiors create the perfect frame to let your client's clothing and accessories take center stage. Available in two trendy finishes with premium features that back our commitment to quality.

Mocha

White

3/4" thick furniture board panels

Steel oval closet rods with chrome plating

HR MAX™ soft-close ball bearing drawer slides with 100 lb weight rating

Support rails are 1" plywood for additional strength

Furniture board with Thermally Fused Laminate (TFL) is durable, scratch-resistant, and easy-to-clean

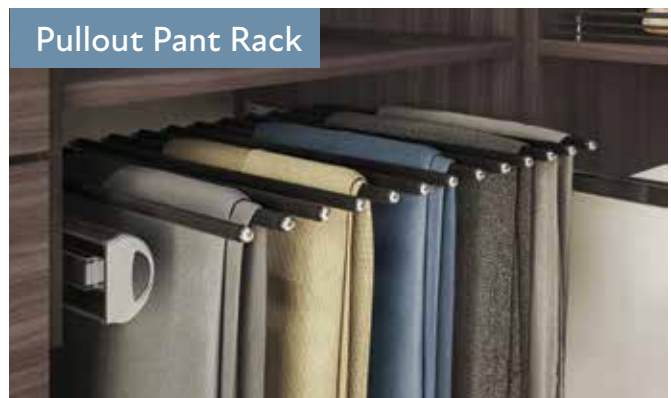

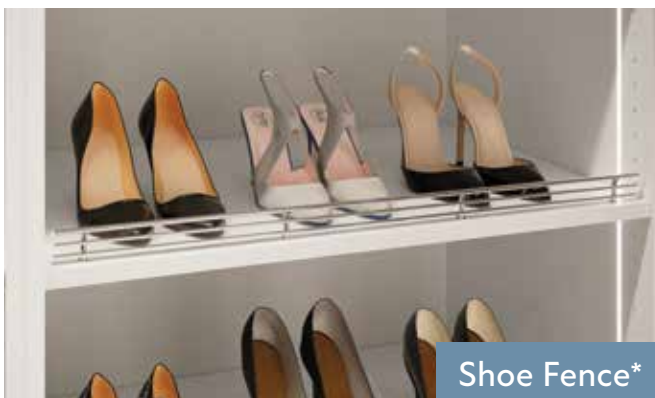

## Beyond the Bedroom: Organize All Your Storage Areas

Anywhere clutter accumulates, there's an opportunity to organize. Think beyond the bedroom and explore other areas of your home—laundry rooms, home offices, craft rooms, and more—all of which can benefit from the versatility of NorthPoint Closets.

# Complete the Closet with Accessories

Today's homeowner wants personalized storage. Create dedicated space for pants, shoes, ties/belts, and seasonal wardrobes with our line of closet organizers from Hardware Resources. Designed for quick and easy installation, most items install with fewer than six screws.

## Set the Mood with Task Lighting

Say goodbye to dark storage spaces in closets! Task Lighting & Power offers an array of LED lighting products designed specifically for closets. Ask your sales representative about adding these products to your offering.

### ✦ LED Lighted Closet Rod

Fully assembled lighted closet rods are easy to install and provide high output illumination right where it's needed—on the clothing.

### ✦ LED Neon Flexible Lighting

Neon Flexible Lighting provides a finished dot-free look in a flexible silicone housing designed for recessed and surface mount applications.

### ✦ Puck Lights

Puck lights offer sleek, surface mounted housing that is perfect for lighting in areas where space is tight, but recessing is not an option.
